

Homework advanced declarer play.

1) You are in 4 Spades. The lead is the 8 Clubs.

Come up with ONE line of play that will bring home at least 10 tricks if the cards are distributed as in e.g A) or in e.g B). (The line of play has to be the same of course !)

Give a general account of how you will play and note what the first 5 or 6 tricks will be .
