 0 loser in Hrts
 2 losers in diamonds
 2 losers in clubs

The Play -I am just going to make general remarks about how to play each hand.
 The lead will not be taken into account unless it could be particularly ruinous.

- 1)With 3 losers there is going to be no problem { F.L.W }.
 Drawing trumps will make 10 tricks.
- 2)The trumps are AKJ107 -----9862 and *of course* one hopes that this suit will not lose a trick. Nonetheless for the purposes of counting losers it is pessimistically counted as 1 loser as we are missing the Q.We need to trump a Hrt in dummy , and will take the diamond finesse. The trumps can be drawn immediately { playing A + K and hoping the Q will drop }.
- 3)Nothing exciting here. Draw trumps hoping they break { and we have no losers there}. Take a club finesse, take a diamond finesse and lastly lead a Hrt towards the KJ and finesse the J { or guess to play the K }. Somethings gotta work !
- 4)Draw trumps { the suit may break anyway }. Then set about trumping a Hrt in dummy. Later we can play a small club towards the Q10 and guess!
- 5)3 losers -Draw trumps.
- 6)3 losers -Draw trumps. NB we will get around to trumping a diamond in dummy later BUT no need to do that immediately.
- 7)Some possibilites. Trump a diamond in dummy is one { so dont draw trumps as we don't have many trumps in dummy };can finesse in clubs; and maybe establish Hrts.
- 8)On a club lead we go down. On other leads we can attempt to discard clubs on Hrts. Dont draw trumps as we will lose the lead and 4 tricks.
- 9)Two possibilities { and you may be able to combine them }. Play diamonds and discard a club or Hrt or play clubs intending to trump clubs in dummy.Playing Di's is best.
- 10)On a club lead we go down. On other leads attempt to discard a club on K di.
 Drawing trumps is foolish as will lose lead and opps will take club tricks.
- 11)Trump a diamond ,do this before drawing trumps.
- 12)Discard Di's on Hrts.-On a Di lead must do this immediately before drawing trumps..
