

Homework -building tricks in defence

The opponents have reached a contract of 4Sp.

You lead the Q Hrts which loses to dummy's Ace, partner playing the 2 Hrts.

At trick two the K spades is led.

Play on from there. Do you win ? if so what do you lead and why?

{By the way it wouldn't hurt to consider how many defensive tricks you think your side has -well how many is that ? }

Again the opponents bid game in spades.

Your partner leads the 2 clubs.

How do you see the defence going?

(no doubt declarer will start drawing trumps -what's your plan when that happens ?

which suits will you lead when you get the chance ? And finally -how many defensive tricks do you think your side has so far ?}
