You are on lead against 4Sp.
You make the obvious lead of the Ace Hrts and partner follows with the 6 (and declarer with the 2). How do you continue and why ?
ie do you play the King Hrts or do you switch to the Q clubs.

Your partner leads the Ace spades against the opponents contract of 4Sp.
In general you feel that partners who lead trumps deserve to have been exterminated at birth but , on this occasion at least you can see that the lead has given you the opportunity to make a revealing discard. Which card do you discard.
