

Homework Oct 27

You are asked to bid the following hands getting to the "good" 3NTs and avoiding the "bad" 3NTs. ie some hands will end in 3NT and some in other games. To get full marks { actually any marks } you will have to make sure the right player { opener or responder } was the one that bid NTs first. Good Luck.

A bit of a puzzle but given the four auctions below {in all of which W elected to double at some point } can you come up with an explanation for West's doubles ? e.g your answers might make reference to :

take out doubles or penalty doubles or lead directing doubles .. perhaps
