

You are on lead against 4Sp. You are not persuaded that any lead you make is so wonderful but you try the 8 Hrts. Dummy wins that lead and plays the K sp.
 Now what ? { Perhaps there is no sure solution to this problem but you should at least make some play { or plays (!) } that are consistent with with what you *hope* will happen }.

Still on defence - the contract is 4Sp. You make the obvious lead { I hope } and then what ?

12)		(dummy)
		K2
		43
(you)		Q432

Still defending 4Sp (on a *very* similar hand to the above). Perhaps your defence is different this time ? What do you lead and play to the early tricks?
