

Your opponents bid to 3NT. Did you ask "well *how* did they bid to 3NT ?". O.K. lets say they bid 1NT -----3NT then. Your lead .

1) AQ63 K6543 65 83	2) 8754 AQ8 KJ2 J109	3)54 KQ43 Q754 765	4)54 KQJ3 Q754 632	5)K432 K432 J108 43
------------------------------	-------------------------------	-----------------------------	-----------------------------	------------------------------

Suppose you held the hands above in (2) or (3) or (5) and the opponents auction had been:

1NT----- 2Cl  
2H -----3NT.

6) what would you lead with hand (1) ? 7) what would you lead with hand (2) ?

8) what would you lead with hand (5) ?

Against a series of contracts of 3NT , partner is on lead. Partner's lead is shown as is the dummy and your hand. In the event that you get the lead at some point (with the Ace diamonds )do you intend to return partner's lead? And if not , what will you switch to ?
